[linkedin.com/in/ovaiskhanday](https://www.linkedin.com/in/ovaiskhanday)

A highly motivated Software Engineer with a passion for software development. Eager to apply my skills and contribute to teams, while continuously learning and expanding my knowledge in the field.

SKILLS

Languages	HTML/CSS, JavaScript, Typescript, Java, SQL, Python, SQL, C/C++
Frameworks & Libraries:	React, Next.js, Node.js, Nestjs, PostgreSQL, MySQL, MongoDB, Tailwind CSS, Shadcn
Tools & Platforms:	Git, GitHub, Actions, Docker, K8S, AWS, Vercel, Firebase, Figma, Postman

TECHNICAL EXPERIENCE

Software Engineer Cybermind Works	February 2026 — Present Chennai, India (On-site)
- Built highly scalable systems, with both front-end and back-end. - Optimized a web-scraping pipeline on AWS EC2, resolving recurrent instance crashes and reducing peak CPU utilization from 100% to a stable 12% through efficient resource management.	
SDE Intern Cybermind Works	August 2025 — February 2026 Chennai, India (Hybrid)
Collaborated in Agile team environment, delivered MVPs and scalable robust systems, with time-variable requirements.	
Coding Mentor CodeYoung	July 2024 — August 2025 Bangalore, India (Remote)
Mentored 20+ international students in web development and Python, helping them build key skills and projects.	

PROJECTS

GuardZapp (SAAS): Manage your Security Operations With our Realtime visibility platform

- Tech stack:** [Nextjs, Postgres, Nestjs, Redis, SQS]
- Streamlines security force management with live GPS tracking, automated geo-fenced attendance verification, and QR-code checkpoint tracking to ensure 100% patrol compliance across client sites.
- Centralizes incident logging and severity-based prioritization with real-time alerting, while enabling one-click generation of automated payroll, billing data, and SLA compliance reports for clients.

CaseCobra: an e-commerce for custom phone back covers

- Tech stack:** [React, Nextjs, Postgres, Typescript, Tailwind]
- Developed casecobra, a responsive web app enabling customers to upload photos and create **personalized** mobile phone cases. Strengthened with admin dashboard, it eases management.

Quixlar - The ultimate online quiz platform

- Tech stack:** [React, Nextjs, MongoDB, Typescript, OAuth]
- Developed Quixlar, the ultimate online quiz platform designed to make quiz creation and participation a breeze. Has an **admin dashboard**, which is used to create, update, monitor the quizzes.

chat8 - A real-time chatting web-app

- Tech stack:** [React, Nextjs, Redis, Typescript, OAuth]
- Developed Chat8, a **real-time chatting** application ensuring seamless and instant communication.
- Utilized **WebSocket** technology to achieve **low-latency** messaging and real-time interaction.

careTracker - fullstack school bus management app

- Tech stack:** [Node.js, Express.js, MongoDB, Flutter]
- Enabled **real-time live location** of buses for the parents to locate the geo-positions of their school going children.
- Leveraged the user of **Arduino** for the hardware to be installed on each bus.

EDUCATION

Master's In Computer Applications University of Kashmir	JAN. 2024 — DEC. 2025 Kashmir, India
Bachelor's of Computer Application - (9 CGPA) Govt. Degree College Anantnag	Apr 2020 — Dec 2023 Kashmir, India

ACTIVITIES

Team Lead: Led successful completion of multiple projects, showcasing **leadership and project management** skills.
